User Story 2

As a user I want to see a list of events that I created

Acceptance criteria:

1. Show a list of all events created by the user: display event title, description and the date of event.
2. Add a search functionality: a user should be able to search an event by name.
3. Add filtering by event date (should be a date picker)

The screenshot displays a web application interface for managing events. At the top, there is a navigation bar with a logo on the left, two menu items 'Events' and 'Online Courses' in the center, and a search icon on the right. Below the navigation bar, there is a search bar with a magnifying glass icon and the text 'Search', a date picker showing '01/28/2021' with a calendar icon, and a blue button labeled 'Create My Event'. The main content area features a list of four events, each with a date badge (28 JAN), a title, a description, and a 'Read more' link.
